

ON MANRESA SCHOOL'S LEARNING CONTINUITY PLAN

Manresa School is in the process of refining its plan on the mode of teaching-learning that would best respond to the situation and needs of the students while awaiting for the DepEd's directives. Continuous capacity-building and training of teachers are ongoing and consultations with stakeholders are conducted. Please be assured that the school takes into serious consideration the current situation and the projected "new normal" after the ECQ.

The schedule of fees sent to requesting parents was the approved fees from DepEd prior to the ECQ. The school will make the necessary adjustments as the school sees it needed after finalizing our learning continuity plan. Stakeholders shall be duly informed of the school's plans once it has been finalized with the administration.
